DANNY LE
PROGRAMMER

W0846568@MYSCC.CA | WWW.GITHUB.COM/2HQE2/

BACKGROUND

A college student from St. Clair College who is currently learning computer programming.
Although inexperienced in the workforce in general, I still plan on being a full-time programmer one day.

SKILLS

Understand and/or use various coding languages.
- HTML & CSS, PHP & SQL
- Java
- Python
- JavaScript

Use & understand Angular to create applications.
Create webpages using HTML, CSS, & PHP.
- Able to create functioning webforms.
- Make websites interactable & adaptable for computers & mobile devices.
- Implement external files such as videos, fonts, images, html files, & stylesheets.

Able to work on programs with others if needed.
- Utilize Git & GitHub repositories to share with others.

Apply time management skills for deadlines.
